

# Pan American Inspection Conference 2024

August 22, 23 and 24, 2024  
Convention Center  
Villahermosa, Tabasco.

Catalogue Of The Exhibition Stands

*Only a select group of companies will be present at the Pan American  
the pan American inspection conference exhibition*

## AN INVITATION TO THE PAN AMERICAN INSPECTION CONFERENCE

In this conference we want everything to be different and is aimed primarily at the most important players who are the inspectors and inspection companies.

At the domestic level in Mexico, this is the only event that brings together all the inspection sectors. This Pan-American Conference is a great opportunity to show the different services that your company offers to the industrial sector in general and the energy sector in particular. The **Pan American Inspection Conference** is open to all companies, entrepreneurs and representatives who are interested in showing their products, services and equipment without discrimination of products, brands or names. If you want to participate with a booth to exhibit your products or services, do not miss this opportunity since we only have 80 spaces, several of these, due to their relevance and impact of **COPAEND** in previous editions, have already been reserved by companies of international prestige, such as classification houses, technological development centers and leading companies in equipment manufacturing, service provision, technology, evaluation and quality control.

If you are a dealer, agent or manufacturer of inspection equipment we have special promotions for you to participate in the exhibition that is aimed at our entire community and show us the latest advances in inspection equipment and techniques.

This event will be attended by renowned international institutions representatives who will explain in their conferences the new certification schemes, their advantages and limitations, which will set a precedent in Mexico.

COPAEND Inspection will be a forum for our colleagues, the inspectors, to present their concerns and proposals to improve and achieve the professional improvement of our guild.

So you are invited to participate as a speaker, as an exhibitor or as an attendee to this event that is for you as an inspector of coatings, welding or non-destructive testing. For more information you can visit the website: [www.copaend.com](http://www.copaend.com) or write to the e-mail: [contacto@copaend.com](mailto:contacto@copaend.com) or WhatsApp: 993 177 6419/ 993 218 7414/ 55 4934 3101.

**Sincerely**  
The Organizing Committee

## ▶ Here are you opportunities

At the domestic level, it is the only event in Mexico that brings together all the inspection sectors.

The **Pan American Inspection conference** is open to all companies, entrepreneurs and representatives interested in showcasing their products, services and equipment without discrimination of products, brands or names.

It is a great opportunity to show the different services your company offers to the industrial sector in general and the energy sector in particular.

At the regional level, it can help form links between the region's industrial, educational and research sectors to educate new human resources.

Currently, there is an STPS census that registers approximately 35 thousand inspectors of different disciplines.

All standards are currently requiring or recommending that inspectors in any sector be qualified and certified under international standards.

▶ **THIS IS OUR PROPOSAL FOR YOU PARTICIPATION**

300 m2 of exhibition area (32'300 SFT aprox.)
